- ³ 'Crowding' is defined as more than two people per bedroom.
- ⁴ 'Doubling up' is defined by the household temporarily living with other people because of economic difficulties.
- ⁵ Food insecurity occurs when there is limited or uncertain access to enough nutritious food due to economic constraints. Child food insecurity occurs when caregivers are no longer able to buffer them from household food shortages. Food insecurity puts children at risk for poor health, increased hospitalizations, iron-deficiency anemia, and developmental delays.
